- We have also submitted a list of women farmers to the agriculture department for support.
- Gave a list of landless women to the government to provide public (khas) land.

## Positive changes in the community

- We have able to pursue the govt to provide us houses for 10 families of IP women.
- We motivated the owners to provide equal wage to indigenous women labor.
- For the first time in my life, I went to capital city of Dhaka and participated national advocacy event, workshop.

# Conclusion

We, the women are very enthusiastic about the S4HL campaign

We, dream and hope that it will bring positive result for women's economic empowerment

**STAND FOR HER LAND**  
HER RIGHTS. HER LAND. A BETTER FUTURE FOR ALL.

# Government of Uganda &

## THE S4HL CAMPAIGN:

# Strengthening and Complementing Government actions to achieve Visible Women Land Rights

By

Dennis Obbo

MINISTRY OF LANDS, HOUSING & URBAN DEVELOPMENT

27<sup>th</sup> June, 2023.

# Uganda's Land Sector Political and Technical Leaders are all women.

1. The Leadership has set the gender agenda to include implementation of Government's Gender strategy on land and the S4HL Campaign Strategy to yield a minimum of 40% women's involvement, participation and inclusion as beneficiaries (legal Land Owners and /or Occupants).
2. It is not an easy task because implementers have to look for these women to engage them.
3. Since 2019, Government plans and actions have been to fully integrate the S4HL campaign.

# How S4HL is supporting and accelerating secure WLRs

- **a. Raising awareness countrywide:** Through its partners the campaign advocates and promotes legal literacy on secure access, ownership and control of land for women across urban, peri-urban, rural communities. The campaign adopts community friendly awareness raising mechanisms to reach both literate and illiterate groups of women.
- **b. Collaboration:** Government can't be everywhere. Civil society and other allies to support implementation of Presidential Directive's and the land laws. Our collaboration is greatly evidenced through legal reform processes among others
- **c. Building a collective voice for grassroots communities-** to reach the grassroots women and address their Strategic Gender Needs. This helps in building the voice and agency of grassroots women to demand for their rights and influence policy and implementation of government programs in their communities
- **d. Enhance implementation of land programs** -through championing male engagement to break discriminatory norms on WLRs

# Benefits of our shared actions are visible

# Benefits

# Benefits to Women

- **Awareness on and about land laws, land rights, processes and procedures;**
- **Secured family investments on land and confidence;**
- **Improved livelihoods and family incomes;**
- **Involvement and inclusion of women in land administration is promising**

# Thank You

The **'Stand for Her Land'** Ugandan campaign, which spearheads women's land rights, has highlighted the benefits of including women on land titles. I hope this collaboration shall continue even in 2023. The NRM Government is therefore applauded for supporting women and other marginalized groups who were only involved in confirming boundaries of their neighbours and signing as witnesses on land forms to now becoming family land owners.

# Improving women's access to land in Senegal

Stand for Her Land Global Webinar 27.6.2023 Alina Raiskila-Weber

## GIZ - German agency for international cooperation

“Seen Suuf - Support for improved land management in Senegal” (2020-2024)

- strengthen land governance and management in partner municipalities
- build the skills of the deconcentrated authorities, the private sector and training institutions
- improve the legal and regulatory framework for securing land rights

## Land tenure security in Senegal

- 89% of the agricultural parcels are without formal title deeds (Annual Agricultural Survey 2020-2021)
- 56% of rural men and women have some kind of documentation proving rights to their property (LANDex)
- Women represent 14,7% of people who own or have a title to agricultural plots (AAS)
- SDG 5 - Gender Equality: Senegal performs poorly, reflecting a failure to implement women's land rights in practice (LANDex)

# German Feminist Development Policy

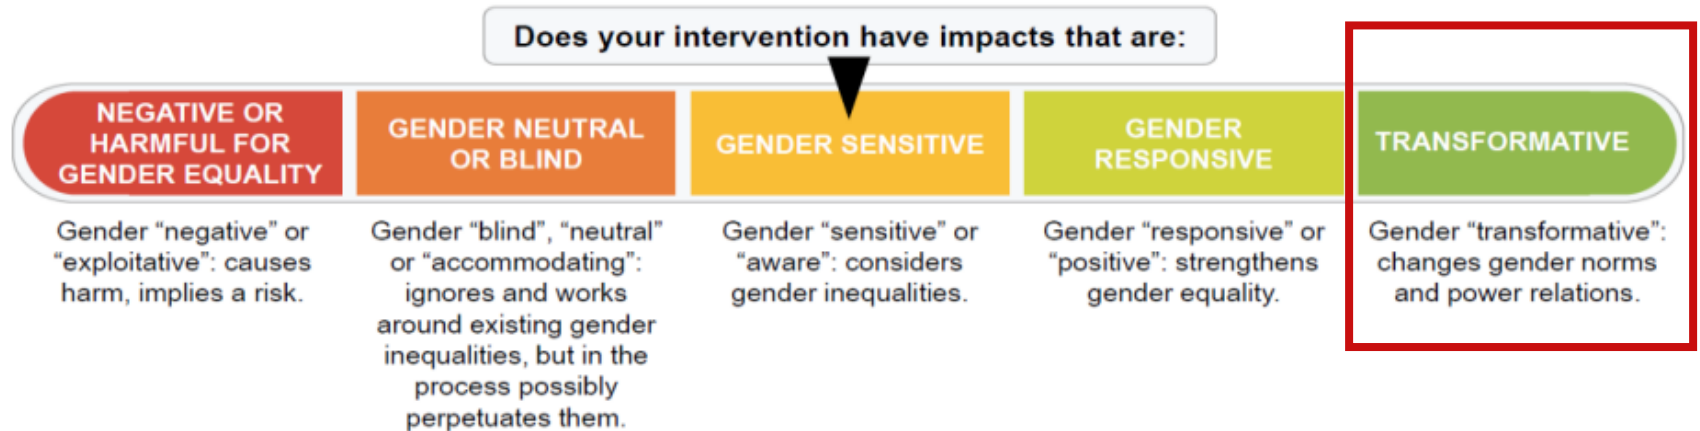

Focus on three key areas: **rights, resources and representation.**

- German development cooperation improves **access to and control over resources for women, girls and marginalised groups and individuals** in the partner countries
- The BMZ advocates for the removal of legal barriers which restrict women's choice of occupation and economic opportunities: **safeguarding access to water and land rights and to natural resources**, property and financial services, and promoting equal rights in inheritance law and employment.

# Gender Transformative Approach

## Major advance in women's land rights

Since December 2022, it has been possible to register agricultural land conjointly in the name of a couple or a family (Decree modification 2022-2307 on collective land rights).

The project counts on the Senegalese civil society to:

- Continue to raise awareness on women's land rights
- Popularize legal reforms
- Advocate for securing women's land rights with municipal and religious authorities
- Train women in negotiation and leadership

***German government seeks to intensify its cooperation with civil society organizations, since they play a key role in bringing committed stakeholders together and dismantling power structures and gender roles.***

# Coalición de Mujeres del Caribe por la tierra y el territorio - Campaña Stand For Her Land Colombia

# Visión a futuro de la Coalición de mujeres del caribe por la tierra y territorio

Soñamos con un mundo libre de violencias contra las mujeres siendo reconocidas en nuestra labor en el territorio y dueñas de nuestra propia tierra con garantías para la digna permanencia

Nuestra meta a tres años es consolidar un movimiento liderado por mujeres para la defensa sostenida de nuestros derechos a la tierra y el territorio, con el fin de lograr una legislación, una política y una aplicación sólida en materia de derechos de las mujeres; hacer que el gobiernos y los funcionarios locales rindan cuentas, transformar normas y comportamientos sociales discriminatorios y que nuestras agendas alcen visibilidad y apoyo nacional y global

# Queremos gozar de una vida libre de violencias

**Seguridad para ejercer nuestros liderazgos**

**Ser libres de todo tipo de violencia. Si no tenemos tierra nos violentan económicamente**

**Nos ha desplazado el conflicto y ahora los megaproyectos. Por estas razones siguen las amenazas a nuestras vidas**

**Exigimos un derecho que nos pertenece, pero hay personas que intentan sacarnos de lo que es nuestro**

**Que se nos garantice el derecho a la tierra con libre expresión, que si hablamos de tierra no nos callen, no tengamos temor de hablar por las represalias en nuestra contra**

**Garantía para la permanencia en el territorio. La guerra continúa en nuestros territorios y son los actores armados quienes siguen tomando las decisiones**

## Queremos el cambio en los comportamientos y prácticas violentas de los hombres en nuestros procesos y comunidades

Desnaturalizar una cantidad de comportamientos y creencias que vienen desde lo ancestral.

"para que la mujer respete hay que darle su golpecito" es una creencia generalizada

**LOS HOMBRES QUE VIOLENTAN NO ES TAN FÁCIL FORMARLOS, PERO PERSISTIREMOS EN CAMBIAR ESTAS ACTITUDES**

En este tiempo soñamos no tener "ganchitos", sino una buena cantidad de aliados que nos apoyen en esta lucha. Ya no tener 1 hombre, sino 10 que sean ejemplo para otros

1. El machismo sigue arraigado... esto de las nuevas masculinidades se va ver reflejado en el cambio de pensamiento,

2. pero el reto es grande porque esto se encuentra muy incorporado, muy naturalizado. En la casa ellos también deben entender que son compañeros, que son apoyo.

3. Esto lo entienden algunos, pero es necesario seguir insistiendo. Necesitamos que en nuestra comunidad se deje de pensar que hay cosas de hombres y cosas de mujeres.

**4. ¡Que nos dejen decidir!**

## Queremos el cambio en los comportamientos y prácticas de los hombres de nuestros procesos y comunidades

**1. se puede enseñar... queremos ser Escuela. En las comunidades indígenas queremos trabajar en equipo. Los hombres son muy celosos**

**2. porque piensan que les van a abrir los ojos a las mujeres y ellas ya no van a ser como ellos quieren (sumisas, calladas, obedientes, sin liderazgo)**

**3. queremos mostrarles a ellos como se transforma la realidad. LOS HOMBRES TAMBIÉN TIENEN QUE CEDER.**

**Los hombres pueden quedar solos sino aprenden a soltar, porque nosotras ya no somos las mismas**

# Queremos cambiar las relaciones entre nosotras y con nuestros cuerpos-territorios

**1. Soñamos que las mujeres puedan confiar en las instituciones , que los funcionarios hagan su trabajo sin sesgos**

**2. Por ejemplo, en el sector salud podemos asistir a un hospital sin tener miedo a que ejerzan violencia ginecobtétrica**

**1. Abordar la salud integral de las mujeres como parte del derecho a la tierra y el territorio. Las mujeres NO estamos enfermas...**

**3. Para ello necesitamos espacios para dialogar y tierra para cultivar las plantas que son base de la medicina ancestral**

**2. pero las condiciones en las que vivimos nos generan malestares y heridas que debemos trabajar, no solas sino juntas y en comunidad.**

# Queremos cambiar las relaciones entre nosotras y con nuestros cuerpos-territorios

**DESCULPABILIZAR A  
LAS MUJERES Y QUE  
JUNTAS  
DESNATURALICEMOS  
LAS VIOLENCIAS**

**Nosotras vamos a  
seguir exigiendo lo  
que es nuestro.  
Somos dolientes  
porque nos duele la  
tierra, y somos  
querientes porque  
anhelamos estar  
aquí**

**Necesitamos sanar.  
Esperamos que  
estos años nos  
ayuden a sanar las  
heridas y los  
malestares que la  
violencia  
psicológica nos ha  
dejado**

**Queremos contar  
con autonomía  
económica. No sólo  
queremos tener el  
título También  
queremos gozar de  
la tierra, usarla,  
disfrutarla**

# Queremos trabajar estrategias para el cambio en nuestros procesos y organizaciones

**Necesitamos trabajar con niños, niñas, con las/os profesores en los colegios que tienen incidencia en estas juventudes**

**El tema cultural no podemos dejarlo atrás. Podemos utilizar nuestras costumbres y música para llevar a los hombres nuestros mensajes**

**1. Hemos trabajado por realizar actividades que no dividan, sino que promuevan la juntanza**

**2. Por ejemplo, una estrategia para convocar a las reflexiones puede ser el deporte, campeonatos de fútbol y béisbol, entre otros.**

**Necesitamos que cambien los requisitos que les exigen a las mujeres para tener la tierra e imposibilitan no sólo tener el título, sino tener con qué trabajarlo**

# Mensajes claves de nuestra mirada a futuro

**"Mi sueño es que nos vean en las comunidades, juntas y como lideresas en la lucha por la tenencia de la tierra"**

**"Luchar por la tenencia de la tierra en las comunidades, de ella depende nuestra seguridad, nuestro alimento"**

**"Las alas de las mujeres campesinas, son las raíces del cultivo para alimentar y alimentarnos"**

**1. "Deseo que las mujeres campesinas, indígenas, afrodescendientes, cuidadoras, artesanas y pescadoras**

**"Las mujeres campesinas no queremos alas, queremos tierras para profundizar nuestras raíces"**

**"Poder dejar un legado para nuestras/os hijas/os cuando nosotras ya no estemos"**

**2. tengamos la libertad de labrar la tierra con nuestros productos libres de transgénicos**

**Queremos vivir en  
nuestro territorio en  
paz, libres de toda  
violencia y sanas**

# Session de dialogue Communautaire

Le 27 Février 2023 à Ross Béthio

- Au Sénégal la campagne interviendra dans sept régions sur 14regions
- Avec 25 Communes pilotes

- Tout en maintenant une orientation stratégique assez claire qui est de mettre les femmes rurales à l'avant-garde de la campagne
- La coalition s'est dotée d'une plateforme nationale bien formée qui porte cette campagne, laquelle plateforme qu'il s'agira de consolider à travers des étapes ;
- Cependant la coalition a pu escalader quelques étapes :
  - Visites de terrain
  - Élaboration de la stratégie de mise en œuvre,
    - Plan d'actions stratégique,
    - Document de situation de référence (background analysis)
    - Stratégies de suivi évaluation, communication.
    - Formation des journalistes sur les droits fonciers des femmes

## Sensibilisation communication

- Dans une approche d'appropriation et de présentation de la campagne des sessions de dialogue communautaires ont été tenues par les différentes faitières à ce titre elles poursuivaient des objectifs visant à partager et à échanger avec les membres des organisations faitières, les autorités locales sur la campagne Stand For Her Land et les plans d'action de chaque faitière.
- De manière spécifique, il s'est agi de :
  - De promouvoir une appropriation de la vision et des objectifs de la campagne « Stand For Her Land » par les organisations faitières et autorités locales ;
  - De discuter de la situation foncière des femmes par rapport aux spécificités locales de chaque organisation de femmes rurales ;
  - D'amender l'esquisse de plan d'action pour chaque organisation de femmes dans le cadre de la mise en œuvre des activités de la campagne.
  - Valider le plan d'action pour les 4 ans d'exécution de la campagne
- Beaucoup d'activités d'amplification de nos voix de femmes à travers des ateliers auxquels nous sommes invités, participation à la journée internationale de la femme rurale, participation à l'atelier de lancement de l'Observatoire régional du Foncier Rural en Afrique.

## Synergies développées

- Les organisations de la coalition sont impliquées et très au fait de tous les projets d'envergure nationale.
- PROCASEF : Le Gouvernement de la République du Sénégal a sollicité et obtenu un financement de la banque mondiale, pour mettre en œuvre le Projet Cadastre et Sécurisation Foncière (PROCASEF) pour une durée de 5 ans (2021-2026). ## 2. Vision – Where we are going

Envisions a future where women and girls in Ethiopia enjoy their land rights equally with their male counterparts!

### 2.1 Key Strategies:

- Increased movement of CSOs working on women land right (15-40);
- Engage more development partners (from currently 3 to 15) to partner and accelerate secure women land right activities;
- Systematically engage more government stakeholders/entities (from current 3-6) to influence policy and practice on women land right;
- Build a critical mass of men, traditional and religious leaders who will raise the voice against the norms and practices that limit women's access and control over land and natural resources;
- Build and enhance the voice and agency of grass roots women to stand for themselves and drive demand for accountability.

# Contd...

## 2.2 Key Activities

- Surface, create awareness and promote implementation on the legal and policies that promote secure WLRs;
- Training and awareness raising for grass roots women & men to improve women's control over land and natural resource;
- Training and awareness to customary and religious leaders to challenge norms and practices on women land right;
- Facilitate exposure visits for grass roots women to share, build solidarity and replicate good practices;
- Dialogue & debate among policy makers and practitioners on women's access to and control over land;
- Media campaign on women's land right to raise awareness of the public at large;
- Dialogue with the private sector to promote responsible investment.

# Contd...

## 2.3 Key Outcomes

- Pastoralist Women access to land improved and sustained (land belongs to the clan while women are married from the other clan);
- Joint registration of urban women improved and sustained (most houses are registered by men);
- Control of small holder women over their land right improved (certification alone is not a guarantee as some are denied the fruits from their land right);
- More and more CSOs engaged in securing and protecting women's land right;
- A solid movement of actors in Ethiopia is established that ensure WLRs perspectives are included in all gender equality and sustainable development initiatives;
- Government and the private sector promote investment inline with international standards to protect WLRs.
